## Apple iPad App of the Day: Podcasts

Today's free App of the Day is Podcasts.

The iTunes Store puts thousands of free podcasts at your fingertips. To find them, select iTunes Store underneath the Store subheading in the left column of the jukebox window; then select "Podcasts" from the menu bar along the top of the store. Or,

here's another way to get there: select the little podcasts icon under the Library subheading in the left column of the jukebox window, then click the arrow next to "Podcast Directory" at the very bottom right-hand side of the iTunes window.

Of course, before you subscribe, you'll want to find podcasts that appeal to your interests. And you have several ways of tracking them down. You can either use the iTunes search box in the upper right-hand corner of the jukebox window, or for a more detailed search you can click on Power Search under Quick Links in the upper right-hand corner of the iTunes Store homepage. Power Search provides pull-down filters for category or language, as well as search boxes specific to podcast title, author or description. Once a search is performed, you can order your results by popularity by clicking on the column header titled "Popularity."

Looking for a specific podcast subject? Try browsing podcasts in the iTunes Store's featured podcast pages. Each page lists popular podcasts that iTunes editors have selected for special feature by subject.

Take a look at the right side of the podcasts page on the iTunes Store. The Top Charts column displays the top 10 episodes and top 10 podcasts based on a combination of recent subscriptions, downloads and customer reviews. By clicking on the "See All" option at the top of each chart, the entire list of top 200 podcasts or episodes is displayed. You can even filter the results to display only audio or video by clicking on the buttons located at the top of each chart. And if you want to see the most popular podcasts by subject, simply navigate to the desired category from the Podcast dropdown menu along the top bar of the iTunes Store and repeat the above process. Continue to dig deeper by clicking on sub-categories located in the bottom left-hand corner of each category page!

If you find a podcast provider that you like, there's an easy way for you to find other podcasts they have created. Just mouse over the provider's name and, if that provider has created more than one podcast, you'll find a link that will whisk you off to a page filled with their podcasts.
